Professional Experience

Interim Lead Capacity Management Specialist **01/2020 to Current** **The Ohio State Wexner Medical Center / James Cancer Center** **Columbus, OH**

Support the management team in the Capacity Management & Transfer Center in all topics related to patient throughput. Works on department in guiding, coaching, and evaluating the work performance of the Capacity Management Specialists. Acts as a resource inter- and intradepartmental issues. Representative in multidisciplinary interdepartmental collaboration. Responsible for department specific policy development, management, and education. Act as a basic technology resource for department as well as responsible for new technology implementation, management, and monitoring.

Administrative Nursing Supervisor **04/2015 to 01/2020** **The Ohio State Wexner Medical Center / James Cancer Center** **Columbus, OH**

Administers nursing operations, enforces hospital's nursing & medical policies and procedures. Manages patient access and throughput functions throughout the health system. Triage via telephone and computer for the hospital system's five hospitals- including oncology patients to a nationally recognized cancer hospital. Resource for medical center staff to assist with needs of customers. Recommends actions, coordinates/liaises activities with all departments. Assist on various committees regarding process development/evaluation within the department.

Staff Nurse **09/2014 to 04/2015** **Riverside Hospital** **Columbus, OH**

Provided quality patient-centered care on a 50 bed fast-paced observation unit. Prioritized treatment working with the physician and mid-level providers for rapid diagnosis, treatment and discharge from the unit.

Staff Nurse **06/2011 to 08/2014** **The James Comprehensive Cancer Center** **Columbus, OH**

Delivered care to patients with acute leukemia and various oncological disorders. Administered critical medications, including chemotherapy, safely and effectively. Provided health education for patients and families to meet substantial educational needs. Developed a resource book for newly diagnosed acute leukemia patients and offset cost with original fundraising. Fostered team work and encouraged best practice by developing a unit based staff acknowledgement/award system.
